

SUPPORT A NEW INTERGROUP ON INCLUSIVE ENTREPRENEURSHIP!

We are gathering support to form a new European Parliament Intergroup on Inclusive Entrepreneurship. Our mission is to ensure **that entrepreneurship is a path open to all**, regardless of gender, age, cultural background, or life experience. Only by creating a more inclusive entrepreneurial ecosystem can Europe prosper and seize the full potential of its diverse society.

As a Member of the European Parliament, your support will be crucial to realise this initiative.

To find out how to support the Intergroup and become a member, you can contact Vanessa Cotterell at vcotterell@unitee.eu or visit our website scanning the QR code at the bottom of the page.

Why inclusive entrepreneurship?

Entrepreneurs are vital for the Europe's economy and society. They contribute to the creation of employment, innovation and the development of green, sustainable and digital solutions.

However, not everyone benefits from the same opportunities: over **7.5 million entrepreneurs are missing** from Europe's entrepreneurial landscape, with nearly three-quarters of these 'missing' entrepreneurs being women. Other groups facing barriers include young people, older adults, migrants and people with disabilities.

Investing in inclusive entrepreneurship pays off. In an era of rapid change and global challenges, ensuring an inclusive and equitable access to entrepreneurship is key. By providing entrepreneurs with the right environment, tools, skills, networks, and funding, we can enable them to flourish and grow resilient, innovative and future-proof businesses.

The intergroup's goal is to **empower entrepreneurs from diverse backgrounds**, raise their voices in EU policymaking, and foster positive change and sustainable growth in Europe.

"The future is built together. It is intercultural. By embracing inclusivity, we can tap into the potential of migrant entrepreneurs and ensure that diverse voices and innovative ideas flourish, leading to a stronger, more resilient economy that benefits everyone."
