

# JOIN OUR CALL

## To create a European Parliament Intergroup on Inclusive Entrepreneurship

We are gathering support to form a **European Parliament Intergroup on Inclusive Entrepreneurship**.

Intergroups provide a forum for informal exchanges of views on specific issues across different political groups, and for contact between Members of the European Parliament and civil society.

**In a nutshell, here is what the intergroup can achieve for us:**

- 1 Inform EU policymakers on the needs of diverse groups in entrepreneurship and address challenges together.**
- 2 Increase collaboration among actors across sectors, party lines, countries and communities.**
- 3 Foster a European strategy that promotes entrepreneurship for all.**
- 4 Promote more inclusive narratives around entrepreneurship.**
